Subject: please complete the settlement

We've used up enough taxpayer money (my money) to punish the one company that has done more for consumers and computing than any other. Let's put an end to the "don't innovate, litigate" credo of the lesser companies. If they'd higher great engineers to make great products, and get out of the courts, maybe they could compete.

As a registered voter, I'm adding my vote to complete the settlement and get America moving again towards innovation!Get more from the Web. FREE MSN Explorer download : <http://explorer.msn.com>
